SECTION 1: COURSE OVERVIEW / 19 mins, 5 parts
- **5/5 Course FAQs**
    - ○ **-> Installing Python -> there are videos for this in the course**

    - ○ **-> https://github.com/Pierian-Data/Complete-Python-3-Bootcamp**
        - ‣ -> these are the notebooks in Python 3 -> there are also older version 2 Python notebooks at https://github.com/jmportilla/Complete-Python-Bootcamp

    - ○ **-> pwd in linux to show where the notebooks are cloned**
        - ‣ ipynb files

        - ‣ **-> anaconda navigator**
            - -> these are different to Python3 in the terminal
            - -> you need the anaconda application
            - -> saving the ipynb files in the right directory -> then opening them in anaconda navigator
